RIEN MIRO M. GAPPI

Bulacan, Philippines • gappirien@gmail.com • linkedin.com/in/rien-miro-gappi • github.com/BugSlayerRien

Fourth-year BS Information Technology student who ships full products, not just screens — a Flutter barbershop app with a computer-vision haircut recommender, a resort booking platform with role-separated portals and live payments, a book review app on Supabase. Most at home in the front end; used to leading a team as well as building for one.

TECHNICAL SKILLS

Languages: JavaScript, TypeScript, Dart, PHP, Python, SQL, HTML5, CSS3
Frameworks: React, Next.js, Flutter, Bootstrap, Vite, React Router
Backend & Data: Node.js, REST APIs, Supabase, Firebase, PostgreSQL, MySQL, Row-Level Security
AI & Vision: Google Gemini API, MediaPipe
Tools & Hosting: Git, GitHub, Docker, Figma, Vercel, Render, PayMongo

PROJECTS

Brilyantis

Flutter, Dart, PHP, MySQL, Python, MediaPipe, Gemini API
Barbershop platform built around an AI face scan: a Python pipeline runs MediaPipe face detection and mesh to derive face shape and hair attributes, then an LLM ranks the top five hairstyles with previews. Separate portals for customers, reception, walk-ins, kiosk and admin.

CK Resort & Events Place

React, Vite, Supabase, PostgreSQL, PayMongo
Resort booking and operations with a portal per role. Live payments through PayMongo with proof-of-payment uploads; Postgres row-level security separates what each role can read and write.

ReadThat

React, Vite, React Router, Supabase, PostgreSQL
Book discovery and review app — ratings, spoiler flags, helpful votes, reading states, and an admin dashboard for the catalogue and moderation.

AskNU • MedEasyna

Flutter, Gemini API • PHP, MySQL, Google OAuth
A Flutter image analyzer built on Google Gemini, and a clinic appointment platform that replaced a paper booking log.

LEADERSHIP & EXPERIENCE

Google Developer Groups on Campus – NU Baliwag *Jun 2026 – Present*
Co-Chapter Organizer
Co-lead the chapter: plan the term's technical events, coordinate the core team, and represent it to student organizations and faculty. Ran InfoSession 2026 and Gem in AI, a hands-on Gemini workshop.

Google Developer Groups on Campus – NU Baliwag *Dec 2025 – May 2026*
Executive Secretary
Owned chapter documentation, minutes and member records across the year; volunteered on GATHER 2025: Google Developers Assembly.

NU Literates Community *Jul 2024 – May 2026*
Batch Delegate, 2nd & 3rd Year
Two consecutive terms representing the batch — carried student concerns into planning and relayed decisions back.

NU Literates Community *Aug 2023 – May 2024*
Class Representative, 1st Year
First elected role; resource speaker for Study Jam: A Midterm Review Session (ITE233).

Google Developer Student Clubs *May 2024 – Jun 2024*
Event Lead
Led planning and day-of execution for a campus developer event.

EDUCATION

National University – Baliwag *2023 – Expected 2027*
BS Information Technology • Dean's Lister — 1st Year (2 terms), 2nd Year • Outstanding Programming Project

STI College Baliuag *2021 – 2023*
Senior High School • Graduated With High Honors • Outstanding Student Award

CERTIFICATIONS

GDG on Campus – NU Baliwag *2025–2026*
InfoSession 2026 (Participation) • Gem in AI: A Gemini Workshop (Appreciation, Volunteer) • Membership, 1st & 2nd Term AY 2025–2026 • GATHER 2025: Google Developers Assembly (Appreciation, Volunteer)

Earlier *2023*
StuG! a Flutter and Firebase Workshop, Google Developer Student Clubs (Participation) • Study Jam: A Midterm Review Session, NU Literates Community (Resource Speaker)
