Fourth-year BS Information Technology student who is dependable, detail-oriented, and collaborative. An approachable teammate who coordinates well with others and turns ideas into complete, working products.

Education

National University – Baliwag — Baliwag, Bulacan
Bachelor of Science in Information Technology — *Expected 2027*
- Dean's Lister
- Capstone Project: Brilyantis, AI-powered barbershop platform

STI College Baliuag — Baliuag, Bulacan
Senior High School; Graduated With High Honors — *2021 – 2023*

Technical Skills

Languages: Python, Dart, PHP, SQL, JavaScript, HTML/CSS
AI & Integrations: Google Gemini API, Grok, Cursor, Claude Code, MediaPipe, OpenCV, PayMongo (GCash), Firebase Cloud Messaging, Google OAuth, Google Calendar API
Frameworks: React, Vite, React Router, Flutter, Riverpod, FastAPI
Data & Infra: PostgreSQL, Supabase, MySQL, Docker, GitHub Actions, Vercel, Render
Tools: Git, GitHub, Figma, REST API design, Playwright

Projects

Brilyantis (Capstone) | *Flutter, PHP, PostgreSQL, Python, FastAPI, MediaPipe, Gemini API* — *Jan 2026 – Present*
- Worked as a full-stack developer: built a Flutter customer and barber app, a self-service kiosk platform, and a web portal for receptionists and admins on a PHP REST API with PostgreSQL row-level security
- Developed an AI face scan: a Python FastAPI service uses MediaPipe and OpenCV to read face shape, then Gemini ranks the top three hairstyles with try-on previews
- Designed a booking engine with time-slot locking against double bookings, group bookings and PayMongo/GCash payments; deployed with Docker on Vercel and Render
- Served as project manager, using Notion to plan tasks, track progress and keep project documentation

GoCollab | *Flutter, Riverpod, Supabase, Firebase Cloud Messaging, Google Calendar API* — *Jul 2026 – Present*
- Built a role-aware app for GDG on Campus Philippines members and officers using Clean Architecture on Supabase (Auth, Storage, Realtime)
- Implemented event registration with QR tickets and officer QR check-in, Google Calendar sync, push notifications and a career opportunities hub
- Built officer analytics dashboards and partner management for sponsorships, meetings and communication logs

AskNU | *Flutter, Dart, Firebase, Cloud Firestore, Cloud Messaging, Gemini API* — *Aug 2026 – Present*
- Built a Flutter student help app for NU Baliwag: FAQ search, bookmarks, offices, document requests and notifications
- Integrated a Gemini assistant that answers from FAQ and handbook content; built an admin dashboard with analytics

Other Projects | *CK Resort, Taste Trails, MUSIKA, ReadThat, MedEasyna*
- **CK Resort** (React, Supabase, PayMongo): resort booking with role-based portals and PayMongo checkout
- **Taste Trails** (Godot, GDScript): 2D cooking and storytelling game about Bulacan, with saved progress
- **MUSIKA** (React, Vite): community atlas of classic English-language songs, filed by the band's country
- **ReadThat** (React, Supabase): book review app with ratings, spoiler flags, reading progress and admin moderation
- **MedEasyna** (PHP, MySQL, Google OAuth): clinic appointment system with dashboards for five user roles

Leadership & Experience

Co-Chapter Organizer, Google Developer Groups on Campus – NU Baliwag — Jun 2026 – Present
- Co-lead the chapter and its core team, plan technical events, and represent the chapter on campus

Executive Secretary, Google Developer Groups on Campus – NU Baliwag — Dec 2025 – May 2026
- Kept chapter documentation, meeting minutes and member records

Batch Delegate (1st - 3rd Year) and Class Representative (1st Year), NU Literates Community — Aug 2023 – May 2026
- Represented the batch to the organization, carrying student concerns up and decisions back down

Event Lead, Google Developer Student Clubs – NU Baliwag — May 2024 – Jun 2024
- Led planning and day-of execution of a campus developer event
